

## Laptop Battery User Manual

### Respected users:

- Thank you very much for trusting and using our laptop battery. Before using the battery, read this manual carefully.

### Usage :

- Please discharge the battery to 2% and then charge fully to 100% at the first cycle after purchasing.

It must be charged up to 70% for longtime storage.

Mismatched adapter or overused adapter may cause the battery not to be charged because of inefficiency output of the adapter.

Please check your adapter first for charging problems of the battery.

Never take out the battery from laptop when it is being charged or discharged.

### Caution:

- Never throw the battery pack into fire, that could cause the battery pack explode.

- Never heat the battery pack, that could cause leakage of alkaline solution or other electrolytic substance.

- Never disassemble the battery pack, that could cause leakage of alkaline solution or other electrolytic substance.

- Never short-circuit the main battery pack by either accidentally or intentionally bringing the terminals in contact with another metal object, that could cause personal injury, a fire, or damage the battery pack.

- Never hammer a nail into the battery pack. Never hit a hammer on the battery pack.

- Never step or tread on the battery pack.

- Always confirm that the temperature is 5 °C~ 35°C before you charge the battery. Leakage or deterioration of the battery pack may occur if this warning is not heeded.

- Never expose the battery pack to any liquid.

- Never expose the battery pack to direct sunlight.

- Never store or use the battery pack in an unventilated vehicle where excessive internal temperatures may be encountered.

- Always keep the battery pack out of reach of infants or small children.

- Never drop or throw the battery pack.

- If the liquid contained within the battery pack leaks, use large amount of water and immediately wash off an liquid which may accidentally contact any part of the body. Remove any liquid that has contacted your clothes by washing them immediately with a synthetic detergent.

### WARNING

- If you ever detect the emission of an extraordinary odor or leakage of alkaline solution or other electrolytic substance, stop usage and dispose of properly.

- Never dispose of used battery packs with other ordinary solid wastes, since they contain toxic substances always dispose of used battery packs in accordance with the prevailing community regulations that apply to the disposal of batteries. Cover the metal terminals with insulating tape in order to prevent accidental short circuiting when disposing of the battery.
