<p>When I try to uninstall Maria DB 5, I get a message that Firefox Sync Server 1.5 is dependent from Maria DB.</p>																			
<p>So I try to uninstall Firefox Sync Server 1.5....</p>																			
<p>...Next....</p>																			

...I am asked to enter Root Password for MySQL ....

Paket-Zentrum

## Remove Firefox Sync Server 1.5 database

Attention: The Firefox Sync Server 1.5 database will be removed during package uninstallation. All users and sync data will be deleted.

Enter your MySQL password

Root password:

Optional: Provide directory for database export. Leave blank to skip export. The directory will be created if it does not exist

Database export location:

Zurück Übernehmen Abbrechen

... after a while I get the message that the password is wrong.

Das Paket konnte nicht deinstalliert werden.

Incorrect MySQL root password

OK

However, accessing Maria DB 5 via MyPHP Admin with the same password used previously is working (see next page)

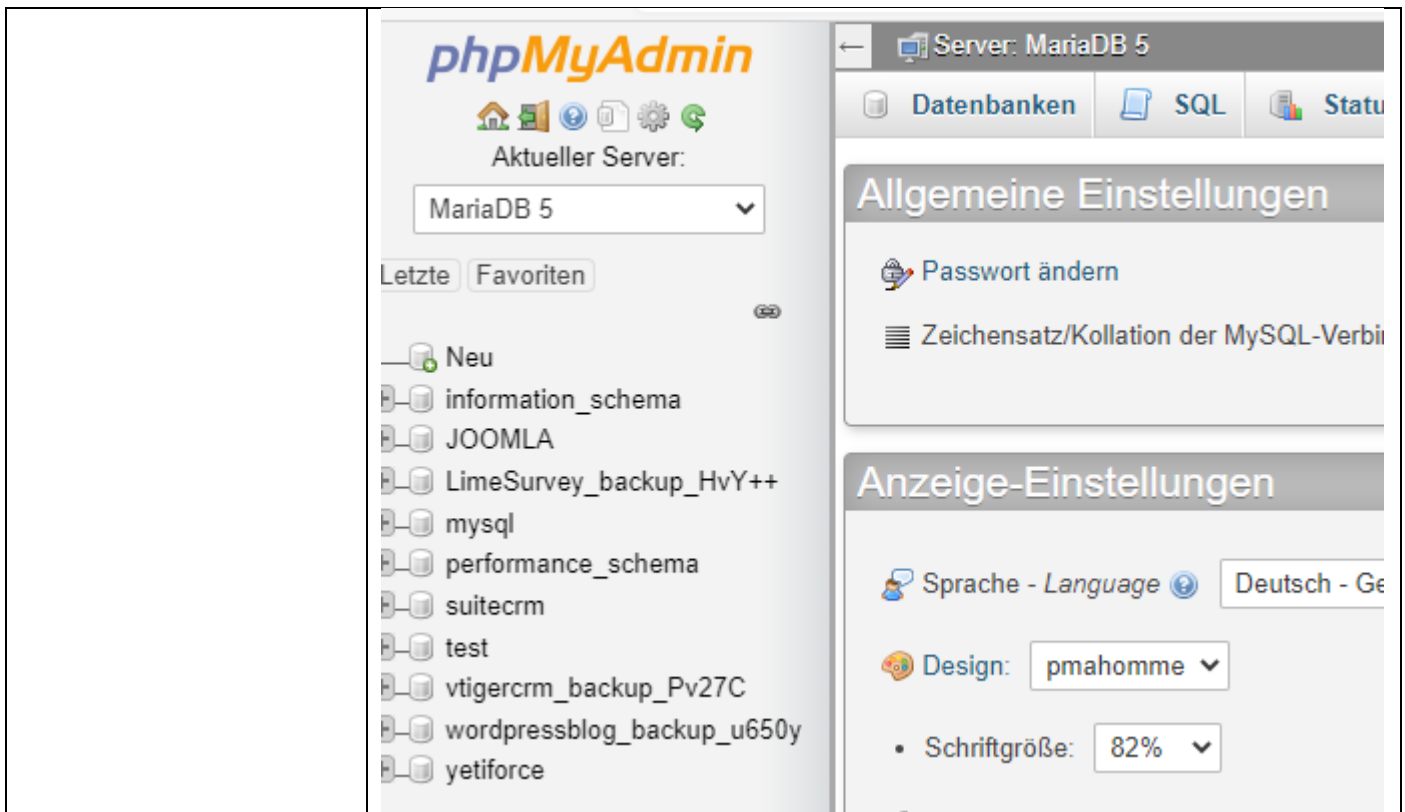

Anmeldung ?

Benutzername:

Passwort:  

Server auswählen:  

OK

I have even reset the password on Maria DB 5 to nothing and to something different, but uninstalling Firefox Sync Server keeps failing with the same error message

So, how to get rid of Firefox Sync Server?
