Shared Housing Project

A solution for matching and placing potential co-tenants in suitable housing units.

Partner: Los Angeles City

Status: `ACTIVE`

Location: DTLA

Links: Github, Slack, Test Site, Launch Site

Languages: JavaScript, Python, SQL, HTML, CSS

Meetup Link

LA Family Housing, an LA-based non-profit working to end the homelessness crisis, engaged the help of Hack for LA to identify and design a more efficient & effective solution for matching multiple individuals who experience homelessness as potential co-tenants, and placing the matched individuals in suitable shared housing units.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Nam semper risus ac augue malesuada, quis consectetur erat pharetra. Mauris at urna euismod, egestas odio non, aliquet massa. Duis sit amet sapien dictum, commodo lacus id, maximus dui. Nullam eget ligula nec velit laoreet porta et vel augue.
