Test Case desktop-158: Desktop sync client regression test [Version : 1]				
#:	**Step actions:**	**Expected Results:**	**Execution notes:**	**Execution Status:**
1	Fresh install ownCloud desktop client on **Windows** 10 using .msi installer Check the versions in General tab	All the versions are correct: ownCloud installed version Qt 5.12.5 OpenSSL 1.1.1d		Passed
2	Visually check all tabs	Tabs look correct		Passed
3	Sync a file to the server	File has been synced		Passed
4	Check the overlay icons	Overlay icons are present		Passed
5	Share a file with another user on the same server	File has been shared successfully		Passed
6	Create a public link	Public link has been created and can be opened in a browser		Passed
7	Enable VFS	VFS has been enabled Overlay icons have changed		Passed
8	Install ownCloud desktop client on latest **macOS** using .pkg installer Check the versions in General tab	All the versions are correct: ownCloud installed version Qt 5.12.5 OpenSSL 1.1.1d		Passed
9	Visually check all tabs	Tabs look correct		Passed
10	Sync a file to the server	File has been synced		Passed
11	Check the overlay icons	Overlay icons are present		Passed
12	Share a file with another user on the same server	File has been shared successfully		Passed
13				Passed

	Create a public link	Public link has been created and can be opened in a browser		
14	Enable VFS	VFS has been enabled		Passed
15	1. Install ownCloud client on **Ubuntu, Mint or Debian with GNOME desktop** 2. sudo apt install owncloud-client-nautilus 3. Check the versions in General tab	All the versions are correct: ownCloud installed version Qt 5.12.5 OpenSSL at least 1.1.1 (depends on the operating system)		Passed
16	Visually check all tabs	Tabs look correct		Passed
17	Sync a file to the server	File has been synced		Passed
18	Check the overlay icons	Overlay icons are present		Passed
19	Share a file with another user on the same server	File has been shared successfully		Passed
20	Create a public link	Public link has been created and can be opened in a browser		Passed
21	Enable VFS	VFS has been enabled		Passed
22	1. Install ownCloud client on **Fedora or CentOS with GNOME and Nautilus file manager** 2. Install sudo yum install owncloud-client-nautilus 3. Check the versions in General tab	All the versions are correct Qt 5.12.5 OpenSSL at least 1.1.1 (depends on the operating system)		Passed
23	Visually check all tabs	Tabs look correct		Passed
24	Sync a file to the server	File has been synced		Passed
25	Check the overlay icons	Overlay icons are present	htttps://github.com/owncloud/client/issues/7570	Failed
26	Share a file with another user on the same server	File has been shared successfully		Passed
27	Create a public link	Public link has been created and		Passed

		can be opened in a browser		
28	Enable VFS	VFS has been enabled Overlay icons have changed		Passed
29	For Beta or RC: Install **Testpilot** client on Windows 10 Check the versions	All the versions are correct: ownCloud installed version Qt 5.12.5 OpenSSL 1.1.1d		Blocked
30	Visually check all tabs	Tabs look correct		Blocked
31	Sync a file to the server	File has been synced		Blocked
32	Check the overlay icons	Overlay icons are present		Blocked
33	Share a file with another user on the same server	File has been shared successfully		Blocked
34	Create a public link	Public link has been created and can be opened in a browser		Blocked
35	Enable VFS	VFS has been enabled Overlay icons have changed		Blocked
36	Branded client doesn't show ownCloud name or logo	No mention at these locations: TODO		Blocked

Execution type:	Manual
Estimated exec. duration (min):	
Priority:	Medium
Execution Details	
Build	2.6.1
Tester	hgemela
Execution Result:	**Passed**
Execution Mode:	**Manual**
Execution duration (min):
