These are QA screenshots

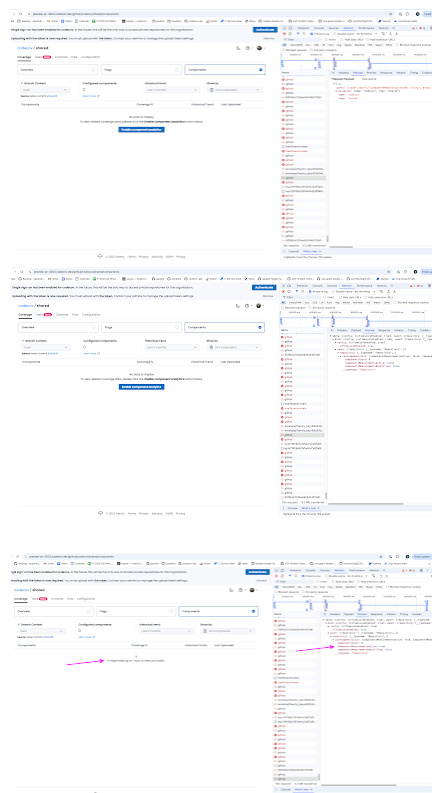

- 1. GetRepoConfigurationStatus (useRepoConfigurationStatus)
  - a. repo > Configuration tab > Configuration Manager subtab

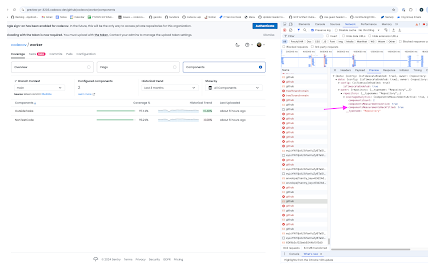

- 2. BackfillComponentMemberships (useComponentsBackfilled)
  - a. repo > Coverage tab > Components radial option

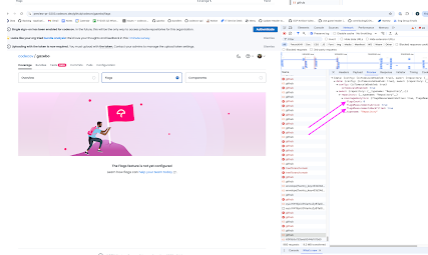

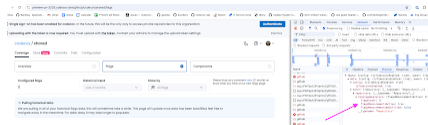

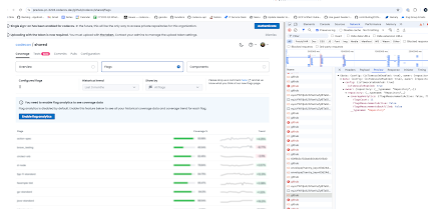

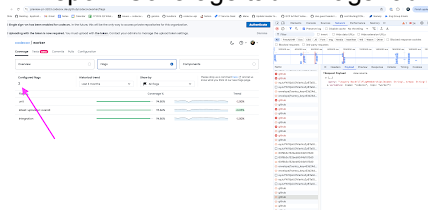

- b. repo > Coverage tab > Components radial option (on a repo that hasn't had Components configured)

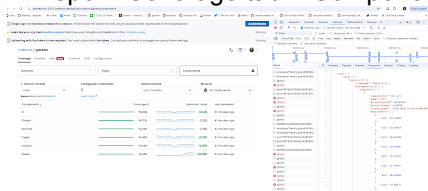

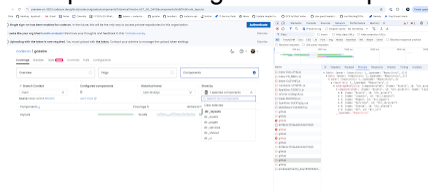

**3. BackfillFlagMemberships (useRepoBackfilled)**  
- repo > Coverage tab > Flags radial option

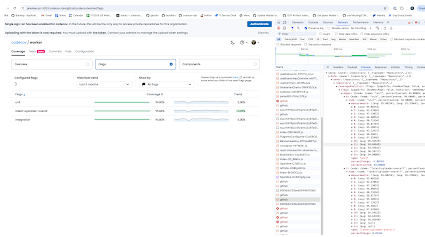

**4. ComponentMeasurements (useRepoComponents)**  
- repo > Coverage tab > Components radial option

**5. RepoComponentsSelector (useRepoComponentsSelect)**  
- repo > Coverage tab > Components radial option > "Show by" components dropdown

**6. FlagMeasurements (useRepoFlags)**  
- repo > Coverage tab > Flags radial option

7. FlagsSelect (useRepoFlagsSelect)

- repo > Coverage tab > Flags radial option > "Show by" flags dropdown
