

The site map was created during Sprint 17-A for Issue #273. The map was reviewed and accepted during the NIST OSCAL status meeting held on Thursday, 1/31/2019. The issue is complete with attachment of this documentation to the issue in the GitHub repository.

<https://github.com/usnistgov/OSCAL/issues/273>

Site implementation based upon the planning performed in issues #273 and #279 is in Sprint 17-B and will be performed during the next sprint cycle. The site map will be used to begin the implementation of the site redesign.
